BASIC TWIST
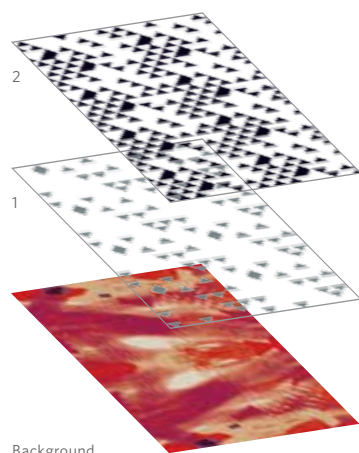

Milliken™

INSPIRED.

An unexpected movement, a clever maneuver, or an energetic dance move. All of these define a twist along with a long list of other uses. For the Basic Twist collection, we apply fresh interpretations to basic geometrics and bold graphics to create a modern twist on the classics. With color ranges from vibrant to neutral and scale of designs from bold to textural, Basic Twist offers new approaches to creating a one-of-a-kind floor.

Guest Rooms SDN

Make every guest room an unexpected upgrade with the possibilities provided by solution dyed modular carpet tile. Each room can become a unique installation with the use of multiple products to create texture or have a monolithic design with a single product selection. For the Basic Twist collection, we've made selections from our openline SDN carpet tile offering easy coordination with the larger scale patterns in the collection. Awaken new choices in guest rooms with Milliken carpet tile.

Some advantages of carpet tile in guest rooms:
- Ease of installation and maintenance
- Reduced lifecycle costs vs broadloom
- Modular tile with cushion backing lasts up to 40% longer than other carpet
- Eliminate the complexity associated with receiving, transporting, and storing

Ask your local Milliken rep about our full list of advantages when using modular tile in guest rooms.

Scale Texture and Coordination

Patterns in Basic Twist share a common connection of scale providing effortless transitions between patterns and spaces. Color and shape also allow us to define the connectivity within the collection while providing the tools to define a space, traffic pattern or brand identity. As with all Milliken Etage collections, customization is made easy with a large selection of color and pattern options.

Layers

A new 'twist' for the etage system is the creation of a foundation pattern. This foundation allows for easy customization by adding new layers or modifying the color. As a new approach, the idea of a canvas that can be used as shown or modified to reflect brand identity, the etage system continues to evolve and provide an easy system to make it your own.

How To Use étage

1

Select a design as shown in this brochure, or use étage technology to customize.

Add and subtract design layers and motifs to create your own look. Remember that you must always use at least two layers, one of which must be the background.

2

Designs in this brochure use a set of colors intended for this particular collection.

Specific colors used in each design are indicated below each pattern image as a swatch of the color with a number inside it. Refer to the colorway diagram on page 23 to find a corresponding color code. These colors are part of the Milliken Pure Color system.
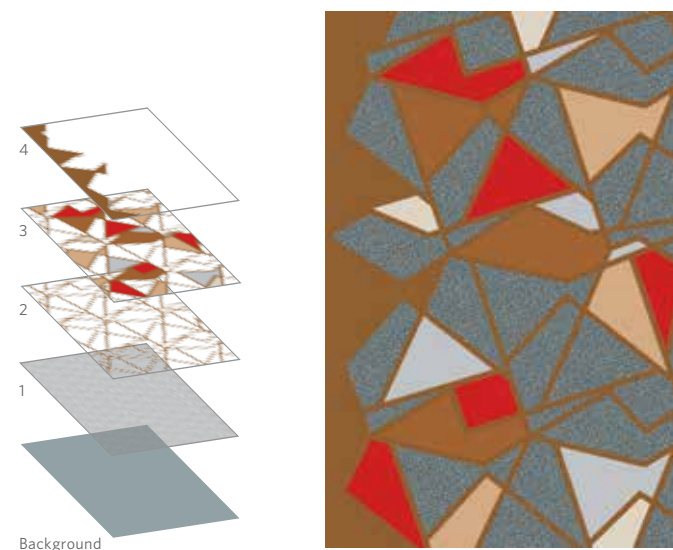

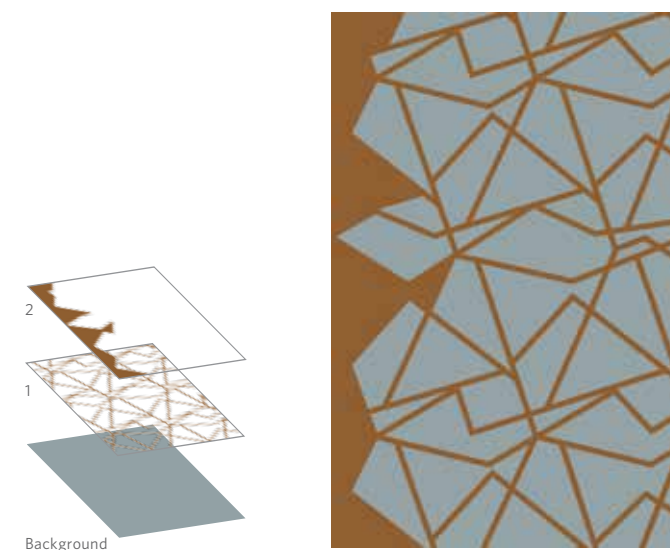

3

Choose a carpet construction that suits your installation.

Contact your Milliken representative to discuss the carpet construction that's best for you.

When it's time to break away from traditional hospitality looks, engage in étage technology.

This all-new process builds a complex pattern, layer by layer. Creating a fully custom look is as simple as choosing and combining layers — layers of organic design elements that defy traditional ideas of symmetry, boxes and borders. Étage technology brings a kind of freedom of design never before known in the hospitality industry.

Each collection includes small-, medium- and large-scale elements for ultimate flexibility in defining rugs, runners and open areas. Combine broadloom and modular and get the best of both. Freedom. Control. It's all here, waiting for an artist's touch. Exclusively from Milliken.

Background

Designs shown in the brochure are ready to use, but you can also select them as a starting point for customization using étage technology.

Background

No change is too great or too small (like simply choosing different colors from a pre-designed rug/runner).

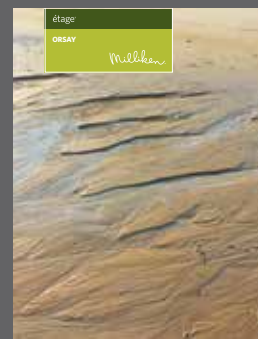

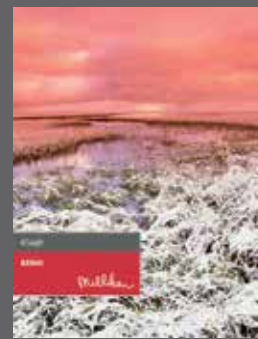

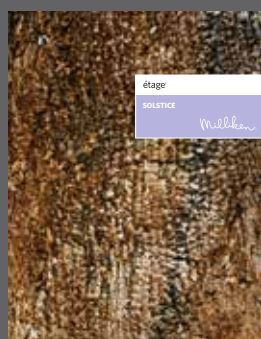

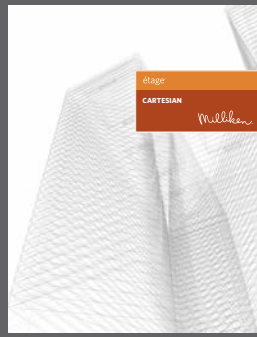

Background

Layers can be added, subtracted, re-ordered, rotated, re-sized and re-colored in any combination to suit your needs.

Background
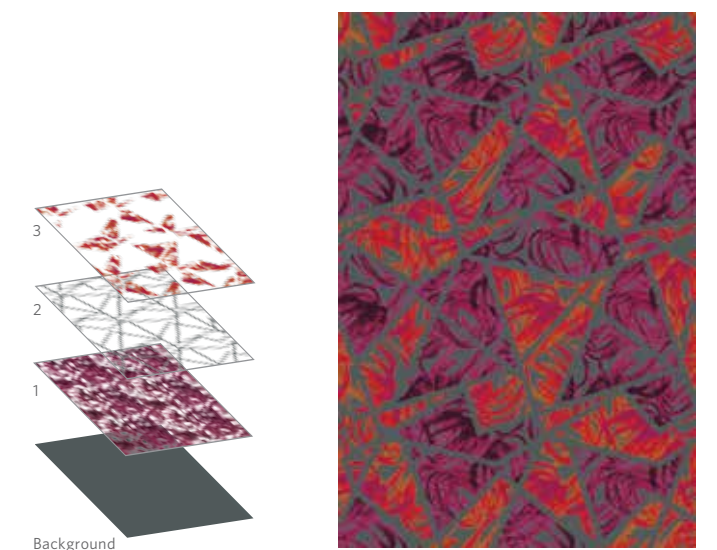

Best of all, repeating layers and motifs from all étage collections can be used together to create a myriad of designs.
