

THE O COLLECTION

Milliken[™]

THE WORKPLACE CHANGES AS THE WORLD CHANGES

Designing flexible, convertible work environments is not only smart, it's what today's workers want. The O Collection is a modular carpet tile system that allows you to reconfigure your floorscapes as your needs change.

Now you can use carpet to create distinct spaces for individual workers without building physical barriers. Or you can use the design elements to bring people together for collaboration. It's a collection for today and forever.

CONNECTING ALL THE DOTS

The O Collection features Milliken's exclusive Continuous Random™ installation method that creates (un)matched style in any space. Our PrintWorks™ technology offers the unique capability to extend pattern across the tile edge, allowing for the precise connection of pattern elements.

Bring forward a larger visual landscape - or not. Keep it random for a more modular look or build larger scale floorscapes by connecting the design. **With a 100 yard² order, you could create 10 ring installations** or an infinity of other layouts. It's entirely up to you.

CONTINUOUS RANDOM™

GIVES YOU CONTROL

YOU CAN CREATE CIRCLES

OR NOT, IT'S UP TO YOU

SUSTAINABLE FEATURES

The O Collection is manufactured with WellBAC[®] Comfort cushion backing, and is certified NSF-140 Gold with 43% pre-consumer recycled content by total product weight. **The O Collection** is also available with our NSF-140 Platinum backing option. All Milliken modular carpets carry Environmental Product Declarations and Health Product Declarations, which contribute to LEED certification. Additionally, Milliken modular carpets carry Declare[®] transparency labels and comply with the Red List Imperative of the Living Building Challenge.[™]
