INSPIRED.

Dramatic color creates life when there is no distinctive figure to distinguish where one form ends and another begins. Respectful of the boundary, yet driven by the need to explore something larger, our perspective is shaped by the entirety of the canvas, be it one of smooth linen or rough-hewn board.
Color Field in Granite Moss, Barnwood, and Birch Shadow (top to bottom), 25cm x 1m ashlar tile installation
INSPIRING.

Inspired by the large swaths of color represented in the abstract expressionism style of ‘color field’ painting, this collection explores the details created when the distinction between subject and background are eliminated. With the ability to discern layers as if they were aged by nature, the collection offers 64 colors to create a quiet floor plane or allow punctuations of color with vibrant hues. This high-performance, severe-rated modular plank allows Color Field to stand-up to the most extreme traffic while maintaining an imaginative color palette.
Color Field in New Silver and Pastel Grey, 35cm x 30cm ashlar tile installation
Volume I Colors

The 16 colors in Color Field have 4 different levels of intensity and movement to help create the exact look and feel envisioned. Even using just one hue’s family, you can create unique floors—perfectly coordinated. Creativity soars when you mix your favorite combination from the 64 colors in a variety of plank installation methods.
Volume II Colors

Even using just one hue’s family, you can create unique floors—perfectly coordinated. Creativity soars when you mix your favorite combination from the 64 colors in a variety of plank installation methods.
**ADVANTAGES OF MILLIKEN CARPET TILE**

**Cushion Backing**

Comfort Plus® & Undercore™ are Milliken’s latest generation cushion backing systems and are standard on Milliken modular carpet products. In addition to providing superior underfoot comfort and significantly improving the carpet’s wear performance, these cushion backings also offer ergonomic, acoustic, and environmental benefits.

Milliken cushion backing protects the carpet face from wear and can extend the carpet’s life by up to 40%. Acting like an insulating shock absorber, Milliken cushion backings protect against wear, improve appearance retention and enhance comfort and safety. Cushion backing also helps Milliken carpets earn test ratings of Severe in the TARR system.

Milliken cushion-backed carpet tiles are unmatched in moisture management. They stop liquids at the surface and wick moisture away from the sub-floor thereby reducing conditions for mold and mildew growth. By allowing high levels of moisture to be transported through the tile, Milliken modular tiles can handle water vapor emissions up to 85% relative humidity. This unique feature eliminates one less worry about carpet in a high-humidity environment.

**Cushion Improves Acoustics**

Much emphasis is placed on the need to reduce unwanted noise in corporate and public spaces. Reducing noise levels can improve comfort, well-being, the ability to concentrate and yield higher performance and productivity. Milliken cushion-backed tiles achieve an improvement in sound absorption performance by absorbing sounds across a wide range of frequencies including those most associated with human speech. Milliken’s cushioned carpet tiles absorb up to 50% more noise than hard-backed carpets and up to 12X more than hard surface and rubber flooring. Better yet, the new LEED v4 rewards designers for providing spaces that facilitate better communications by offering up to 2 LEED points. Clearly, acoustics matter.

**StainSmart®**

StainSmart is a proprietary treatment applied to Milliken modular carpets to provide Stain Repel, Stain Resist and Soil Release characteristics. This treatment provides state-of-the-art protection against penetrating stains and soil. It’s a dual action technology that enables liquid and oil-based spills to bead up and be easily removed from the carpet. The treatment becomes an inherent part of the carpet so it’s durable over years of use, even in high traffic.

**Stain Repel:** StainSmart allows many liquid spills to be blotted and removed easily before they can penetrate beyond the carpet surface.

**Stain Resist:** This chemistry blocks the dye sites of the nylon fiber, lessening the ability of a stain to bond with the fiber.

**Soil Release:** Prevents soil from adhering to or imbedding in the fiber surface and enhances the efficiency of soil removal when proper cleaning techniques are followed.

Milliken warrants that carpet treated with StainSmart will resist soiling and staining during the lifetime* of the carpet. Proper maintenance is vital to the long-term effectiveness of the StainSmart treatment. Soaps used in wet-cleaning processes, especially spin bonnet, can cause rapid resoiling and effectively negate the protection built into the product. Milliken recommends the MilliCare® Textile and Carpet Care Service Network.

*Lifetime is defined as the period of time that the original purchaser of the carpet chooses to keep the carpet on the floor at the original installation site.

**Sustainable**

At Milliken, sustainability is core to our culture. We believe a healthy enterprise and healthy earth are vitally linked. We care about and respect each other, our customers, and the world we share. While we hold ourselves accountable to the highest ethical standards, we derive our greatest satisfaction from creating innovations that help solve the world’s problems at a human level—adding value to people’s lives, improving health and safety, and making this world sustainable.

Milliken has also demonstrated a commitment to transparency by disclosing the components of our commercial carpet tile products through Declare®, a voluntary labeling program and database operated by the International Living Future Institute™, and complies with the Red List Imperative of the Living Building Challenge™.

**Examples of Our Commitment:**

- 46% of the energy used in the manufacture of our carpet is renewable through company owned hydroelectric facilities and local landfill methane gas harvesting.
- Milliken Carpet tile products have Environmental Product Declarations (EPD’s) that are third party certified by Underwriters Laboratory (UL).
- All Milliken Carpet products are free of the 15 Red List chemicals defined in the Living Building Challenge.
- All global Milliken products are third-party certified carbon neutral by the Leonardo Academy. Carbon dioxide created in the manufacturing of all Milliken products globally is offset through company owned sustainably managed forests and green energy producing facilities.
- Product Life Cycle Assessments (LCA) are used for New Product Development. Milliken has used the Design for Environment (DFE) process for our commercial carpet products since 2002.
- Our polyurethane backed cushion increases the life of carpet more than 40%.
- All Milliken Carpet products are 3rd party certified NSF-140 Gold or Platinum.
- All U.S. plants are certified as OSHA VPP STAR Sites.
- All carpet manufacturing sites are ISO-14001 Certified—the highest global standard for environmental responsibility.
Growing greener for over 100 years.

This product has a UL® Environment 3rd party verified Environmental Product Declaration (EPD). A copy of the EPD is available online at millikencarpet.com/epd and productguide.ulenvironment.com.

Construction
Tufted, Textured Loop

Tile Size
25 cm x 1 m (9.8” x 39.4”)

Yarn Type
Milliken-Certified WearOn® Nylon Type 6,6

Stain Repel / Stain Resist / Soil Release
StainSmart®

Tufted Face Weight
15 oz/yd² (509 g/m²)

Finished Pile Height
0.08” (2.03 mm)

Average Density
6,541

Standard Backing
PVC-Free Underscore™ ES Cushion

Texture Appearance Retention Rating (TARR)
Severe

Recommended Installation Method
PLANKS

This cushion-back carpet tile product is covered by one or more patents, published applications and/or patents pending. Specifications are subject to normal manufacturing tolerances and may be changed without prior notice.
