

FREE FLOW

Milliken

FREE FLOW

Every day, the flow of life shows us shapes, patterns and colours.

Free Flow expresses a uniquely artful perspective inspired by the natural details around us. Explore the fabrics that define us in textures. Experiment with directionally inspired choices in Linears. Discover the methodical order of Geometrics. Or, imitate nature with unique appeal of organics.

All patterns are available in 50cm x 50cm tiles and 25cm x 100cm planks.

FREE FLOW WORKS WITHIN

Free Flow is designed to work within itself to create natural, living floorspaces. Choose your favourite aesthetic emulation, pair coordinating patterns, or make a statement and select contrasting designs. There is no wrong way to navigate this collection; you can simply discover your own unique flow.

NEW & RETROFIT INSTALLATIONS

Free Flow is ideal for a variety of spaces in need of aesthetic and functional updates, especially new installations and renovations. With an open-cell WellBAC™ cushion backing construction, Free Flow can withstand all levels of RH and pH, eliminating any potential compatibility issues.

QUICK SHIP SERVICE

Free Flow offers a Quick Ship service, making the process between product selection and product delivery swift and effortless. This collection is especially an ideal choice for new or retrofit installations, accelerated time lines, or simply for a guaranteed, no hassle delivery.

Milliken supports the Property Industry Foundation

Milliken is a proud partner of the Property Industry Foundation, an organisation devoted to alleviating the problem of youth homelessness. The Foundation builds homes for homeless youth and provides ongoing support for homes where young people can rebuild their lives.

Homelessness is one of the most severe forms of disadvantage and social exclusion that any young person can experience. Youth homelessness affects 44,000 young Australians every night and understanding the scale of this issue, we were compelled to get involved and help in the great work the foundation is doing.

The Free Flow collection is part of the 'Product Pathway'. The 'Product Pathway' is a unique fundraising model created by Milliken for the Property Industry Foundation where a contribution from every dollar of sales is donated to the foundation to build homes for homeless youth. The aim of the product pathway is to provide a regular and sustainable fundraising stream and with your help, we can keep assisting the Property Industry Foundation in tackling the issue of youth homelessness.

The Foundation's mission is to make a tangible difference to the serious and persistent problem of youth homelessness by partnering with respected charities to build safe environments and support charity managed initiatives focused on education, employment and well-being.

For Homeless Youth

Self-sanitising Carpet

Integrated Infection Control

MGUARD+ treatment kills 99% of the SARS-CoV-2 virus within 2 hours of contact with Milliken PrintWorks™ carpet tiles.

MGUARD+ treatment kills 99% of *S. aureus*, *E. coli*, *K. pneumoniae* in 24 hours as per AATCC 174-2.

Duration of protection varies with use.

Powered by HealthGuard®.

Only available in Australia and New Zealand.

Declare.

WellBAC®

Milliken WellBAC® open cell foam cushion provides superior durability, appearance retention and cushioning.

Up to 24% greater underfoot comfort for enhanced ergonomics whilst standing.

Up to 50% improved acoustics for quieter, more productive spaces.

Industry leading moisture management with non-reactive backings to enhance the installation process.

3rd party Verified Red-List Free products for occupant and installer well-being.

Enhanced Indoor Air Quality (Low VOC) for improved occupant and installer well-being.

FACE FABRIC

Patterns and structures made up of nylon yarns with our state of the art tufting technology.

PRIMARY BACKING

The face yarn is tufted through a high quality non-woven textile. The structure of the textile holds the yarn in place acting as the primary backing.

PRECOAT

The precoat layer locks the tufted yarns in the primary backing to ensure good tuft bind strength between the yarns and the backing.

FIBERGLASS

A high quality fiberglass layer is embedded in the polyolefin compound to ensure dimensional stability of the tile.

SECONDARY BACKING

Proprietary Polyolefin compound layer formulated by Milliken R&D scientists to create a durable and stable tile. Our formulation does not contain PVC or plasticizers.

PREMIUM CUSHION

WellBAC® Comfort and Comfort Plus incorporate a premium cushion layer, designed to provide additional health and wellness benefits. Milliken's cushion is made from recycled polyurethane foam.

FELT BACK

A protective non-woven textile layer provides a breathable non-reactive finish. It enhances health and wellness.

Milliken's standard cushion backing system — offering enhanced underfoot comfort, acoustic and wear performance.
