CHANGE AGENT

LUXURY VINYL TILE

It may seem the broad concepts of science and magic live on opposite ends of the spectrum. Science strives to understand and explain, while magic relies on the mystical possibilities of the unknown. Yet the goal of each is much more similar than one may initially think. They both share a desire to achieve complete transformation.

Introducing Change Agent, a new LVT collection influenced by the transcendent act of bringing forth new purpose from natural materials. Capturing the essence of aged stone to charred and petrified wood, explore fresh perspectives offered in an assortment of reimagined neutrals. Whether it be science, magic, or a bit of both, Change Agent expresses the beauty found within perpetual transformation.

A CATALYST OF

SPECIFICALLY DESIGNED to complement one another, the complete Change Agent collection offers styles in both modular carpet and LVT categories. Seamlessly mix, match and pair together to create one gorgeously continuous floorscape.

VARIATION THROUGH EXPERIMENTATION

Just as texture and physical appearance will vary in samples of aged stone or petrified wood, beautiful variations of shade within Relic are found in this unique LVT product. The shade variation guide below reflects our LVT styles ranging from low, to moderate, to high. Low shade variation features soft and subtle gradations. Moderate shade variation contains a more distinguishable variety of hue. And high shade variation models the highest level of contrast. Relic has MODERATE shade variation.
