

OBEX™ | Milliken™ Entrance Flooring

QUADRUS MATS & ROLLS

Milliken™

Performance that Protects

Quadrus Mats & Rolls deliver the optimum balance between tough scraping action and moisture absorption. These products offer functional, attractive, and easy-to-use protection for your floors.

Quadrus Orbit Brush in color Boundary

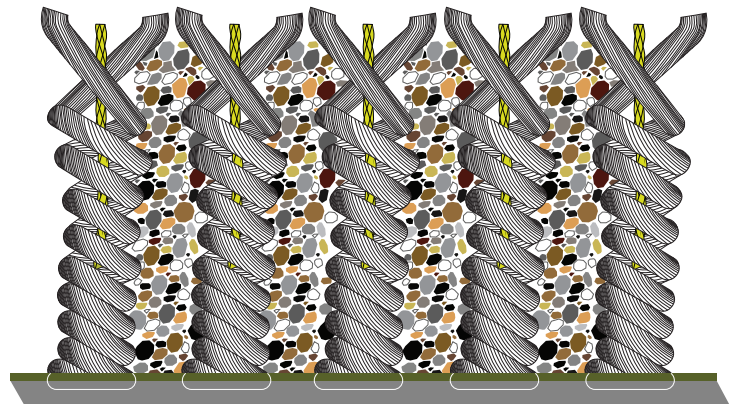

Quadrus Liftoff in color Boundary

Designed to Deliver

The textile used in Quadrus Mats & Rolls contains these core elements:

- Mono-filament fibers act as a scraper, removing dirt particles from shoes.
- Nylon fibers capture moisture as people walk across the textile.
- The open tufted, cut-pile construction provides storage and retention of dirt particles, which can be easily removed with regular vacuuming or hot water extraction.

A Visual Solution for Every Space

Quadrus Mats & Rolls are available in four of the standard tile patterns (Impulse, Liftoff, Traveler and Orbit Brush), and all eight standard colors. These patterns and colors coordinate with the ARX, Quadrus, and Sepio collections, providing a cohesive, flexible Entrance Flooring system.

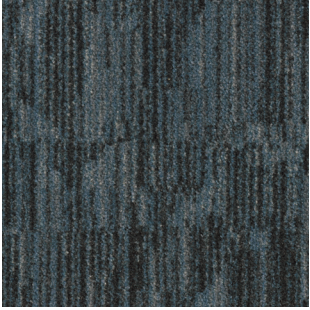

Quadrus Impulse in color Radius

Easy to Deploy. Easy to Maintain

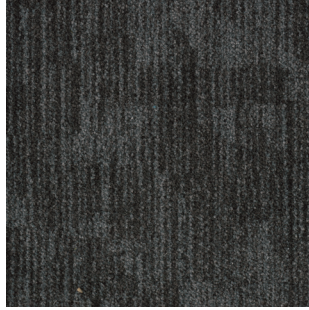

Quadrus Mats & Rolls are built to collect dirt and moisture. This means they must be cleaned on a regular basis. Daily vacuuming is recommended to maintain full textile performance. Frequency of deep cleaning/hot water extraction is determined based on your specific traffic and soiling conditions.
