HEAVY META

Metal is a crucial material that shapes our experience in the modern world. But what happens when this heavily-relied upon material is pushed to its limit? Introducing Heavy Meta, a new carpet collection that examines the perplexing conversion of this common material into a new and unexpected manifestation. With the activation of a catalyst, can metal thrive?

ALLOY

Rich in contrast and refined in movement, Alloy offers a steady, more subtle transformative nature, much like the pouring of smooth, melted metal into a casting mold.

FOUNDRY

Much like the fusing of different metals to create the utmost in durability, Foundry features a series of linear forms traveling in various directions, expressing a chaotic yet thorough transformation.

Experiment with 2 reformed patterns, Alloy and Foundry, offered in a selection of 8 malleable colors, contrasting in tone and polished in design. And, with a brilliantly high-luster yarn welded in to each tile, watch as designs innately mirror the same sheen of this unique material. With Heavy Meta, become activated with an unconventional method of transformation.
