

UNEARTHED

Milliken™

INSPIRED. INSPIRING.

Whether unearthed in archaeological digs or happened upon by chance, fossilized remains and mineral formations reveal the intricacies of nature. The beauty discovered in the materiality of these natural elements inspires new texture, colour, and definition. We unveil them in second surfaces exclusively through the lens of technology.

Through every archaeological site, we uncover new insight into the world as it once was: ancient civilizations, storied cultures, and wild terrains ruled by prehistoric life.

A new world reveals itself. Shades of sediment and clay cue the passing of time and present a moment of self-reflection. While we rush in our fast-paced society, Mother Nature takes her time to evolve the physical environment, preserving markers from the past to reveal her true nature in the present.

At once reflective and progressive, the Unearthed Collection brings to light the stories told through line and figures in cave paintings, ceramic treasures and ornate architecture that once defined history's great cities. From each of which we glean lessons learned and marvel at the ingenuity of the human spirit that has led us to become the diverse culture of innovators we are today.

The world is waiting to be unearthed. What stories will you let it tell?

Rocky cliffs in Kimmeridge Dorset, UK

Mantle in Larimar

TEXTURE THROUGH LAYERS

The Unearthed Collection interprets the textural transformations that take place within every inch of the earth. Horizontal strata of sedimentary rock build upon one another, each individual line and colour a clue into the time when it was visible to the sun. Fine-grained mud stone and shale transport us back to Late Jurassic times, when prehistoric ammonites left their large spirals forever impressed.

The collection's patterns are an organic exploration of shape and colour, which evolve into new textures as nature's intriguing effects move underlying surfaces forward. Such precisely nuanced quality of colour and pattern can only be achieved through the industry's most revered digital dye injection print technology. The resulting aesthetic is both subtle and stimulating.

Bedrock 2, Caldera & Caldera Fossil in Larimar

TEXTURE EVOLVED

Unearthed creates a new approach to integrate layered texture into interiors. A robust offering of coordinating patterns provides various design elements: granular textures, linear striations, and both angular and organic, free-form shapes.

For more linear characteristics, consider Mantle and its coordinating counterparts. Or, explore the boundless kaleidoscope qualities of Mélangé and Gypsum.

Select patterns build upon base designs with a playful twist. The geometric additions of Glyph, Fossil and Spiro reveal excavated finds for a refined element of intrigue while Strata overlays an organic linearity. Gypsum Glyph, Caldera Fossil, Bedrock Spiro, and Mélangé Strata are a few of our favourite examples.

Rock cairn in the Carpathians, Ukraine

LARIMAR

We bring our study of the earth's past into the future with Larimar, the collection's signature colourway. A base of inky blues, which we consider to be a new neutral, links the colourway across varying contrast levels as warmer tones create breathing room on the floor.

Select Larimar for interior environments that require a striking sophistication but also appreciate the eccentric.

Basin 2 Strata in Larimar

Mélange & Mélange Strata in Larimar

Bedrock 1 Spiro in Larimar

CREATIVE GUESTROOMS

Reimagine what guestrooms can be using Uearthed as the foundation of your design. The collection's modularity invites the use of multiple patterns of soft and hard surfaces to create inset area rugs, much like one's home.

Take advantage of the flexibility that modular carpet affords by strategically inserting additional tiles under guest beds. Simply swap tiles when replacement is required and your guest room stays in commission even amid repairs.

Floor Plan Layout example.

Mélange & Basim 2 in Larimar

Antelope Canyon, Arizona

JASPER

From Neolithic cave painters to French royalty, red has been considered a colour of magic, strength, and power for centuries. The rich reds, vibrant oranges and striking yellows of Jasper inject movement and energy into interiors. Mélange Strata resembles eroded red rocks whipped by water and sand over time, while Gypsum Glyph takes guests to the famed caves of Lascaux.

Mélange Strata in Jasper

The Wave at Coyote Buttes North, Utah

"The finest workers in stone are not copper or steel tools, but the gentle touches of air and water working at their leisure with a liberal allowance of time." - Henry David Thoreau

Basin 3 Glyph in Jasper

Gypsum Glyph & Bedrock 3 in Jasper

Bedrock 3 & Mélange in Jasper

COLOUR COORDINATION

Each design is available in three rich and earthy colourways — Larimar, Jasper, and Quartz. Pair patterns in different design groupings using the same colourway for coordination or a custom colouration to achieve the design vision.

Caldera Fossil & Bedrock 4 Fossil in Jasper

Caldera Fossil & Bedrock 4 Fossil in Jasper

Caldera Fossil & Bedrock 4 in Jasper

PATTERN GROUPINGS

Strategic pattern groupings are easy to approach with the versatility of Uearthed. Five coordinated groups of various design and pattern character include Gypsum, Mantle, Mélange, and Caldera.

Each grouping features four individual patterns: an expansive hero design, a smaller-scale companion, and the same two patterns layered with geometrics. Work within a single group for projects with limited time lines, or explore the uniqueness created when multiple groupings are mixed.

Caldera Fossil in Jasper with Metro Park Stone in Polished Concrete in Scoring (PLC144)

Mayan ruins in Tikal, Guatemala

QUARTZ

The most quiet colourway for Uearthed, Quartz offers a fresh sense of composure. Opaque browns and translucent beige tones are used to carve out patterns and communicate the unique characteristics of each design.

Mantle Spiro in Quartz with Metro Park Stone in Polished Concrete in Polish (PLC67)

Bedrock 7 Spiro & Mantle Spiro in Quartz

CONFERENCE

Define large spaces easily with Uearthed. One of the unique features of the collection is our extra-large patterns. Design runners and rugs in various sizes, or work with our design and visualisation teams to create a custom layout for your large space. Custom minimums apply.

Gypsum & Basin 5 in Quartz

MEETING

All board rooms are not created equal. Add sophistication, subtlety, or energy by choosing one of the many transition patterns for executive areas.

Mélange in Quartz with Metro Park Wood in Heritage Wood in Pride (HTG208)

OFFICE

Build distinctive workspaces with the modular components of Uearthed. Add border effects and gradients to zone particular areas, such as corridors or desk groupings, while also connecting people working in the space.

MODULAR LANDSCAPES

LOCAL CUSTOMISATION: We have perfected the art of customisation and design flexibility with our PrintWorks™ technology that provides endless possibilities.

The Milliken Couture customisation process ensures a carpet sample is created within 4 days from concept at our manufacturing facility in Sydney.

SPEED: The PrintWorks™ technology at our manufacturing facility in Sydney allows Milliken to deliver orders within 3 weeks from date of order.

INTEGRATED CUSHION: Eliminate the need for dual bond installations with our industry leading integrated cushion backing.

Using an open-cell foam technology, Milliken's WellBAC™ cushion backing delivers health, wellness and performance benefits, including improved acoustics, appearance retention and underfoot comfort.

EASE OF MAINTENANCE: Modular carpet tile format is an ideal and functional solution, enhancing installation flexibility and ease of maintenance, as individual tiles can be lifted for cleaning or replacement.

MATERIAL EFFICIENCY: Simple installation, our products can be quickly and easily replaced. Modular tiles reduce overall waste factor and storage, with no bulky rolls to manage. Modular carpets can typically save 20-30% waste compared to broadloom carpet.

SUSTAINABILITY: PVC free, Declare Red List Free, Cradle to Cradle Silver and certified under the Carpet Institute of Australia Environmental Certification Scheme, all Milliken products achieve Level A recognition for Green Star in Australia and New Zealand.

GRAND PLAZA FEATURES & SPECIFICATIONS

FACE WEIGHT: 40oz tufted, patterned cut-pile provides unparalleled luxury and under-foot comfort for a tufted carpet tile.

BACKING: All Milliken tiles come standard with a non-reactive and polyurethane PVC-FREE cushion backing. This provides superior underfoot comfort while improving the carpet's durability and offering ergonomic, acoustic, and environmental benefits.

ACOUSTICS: With cushion backing as a standard, Milliken's carpet tiles provide outstanding sound absorption - absorbing 60% more noise and transmitting 50% less noise than other non-cushion carpet.

DIMENSIONAL STABILITY: For carpet tile, it is imperative that the tile remains flat and dimensionally stable and secure to the floor under extreme conditions (humidity, temperature, & rolling traction). Verify with Aachen test . All Milliken products are certified and pass for dimensional stability.

STAIN AND SOIL PROTECTION: Food and beverage spills in public environments require product performance enhancements to help with long term cleanability and overall appearance. All Milliken carpet products include as standard our StainSmart® technology- a chemically bonded stain and soil resist technology.

MOISTURE BARRIER: For added performance, the product is standard with a barrier layer that prevents moisture from penetrating through the cushion backing for easier cleaning.

COMPLETE FLOORING SOLUTIONS

With an industry leading selection of high-performance modular carpet and LVT options, we are inspired to create exceptional Clubs & Gaming and Hospitality flooring products that will inspire you and your guests.

Whether it's one of our standard hospitality collections or a custom option from our easy to specify PrintWorks™ patterning technology, we have the right colour, pattern, and construction that adds value to your environment. From the front door, through the lobby to the public space and guest room, Milliken brings innovative design to every corner of your property.

CREATING A BETTER WORLD

Milliken supports the Property Industry Foundation

Milliken is a proud National Corporate Donor of the Property Industry Foundation (PIF) and have actively engaged in fundraising initiatives and volunteer programs to help build homes for homeless youths in Australia.

The Uneathed collection is part of the **"purpose-orientated"** pathway initiative in pro-actively raising funds for homeless youth. A percentage of revenue of every specification of Uneathed will be donated to PIF.

The Foundation's mission is to make a tangible difference to the serious and persistent problem of youth homelessness by partnering with respected charities to build safe environments and support charity managed initiatives focused on education, employment and wellbeing.
